

*You've trusted Shred-it with your document destruction needs. Now, by forming a strategic partnership with Stria, we're able to make your information secure and readily accessible*

Stria's areas of expertise include:

- Document Imaging
- Scan-on-Demand Records Management
- Records Management Consulting
- Mobile Document Imaging
- Electronic Health Records
- Data Conversion
- Litigation Support Services
- File Room Optimization

### Compliance

We understand that each industry has its own set of rules and regulations. These rules and regulations define the protocols used by Stria to convert physical content into digital data.

### Accessibility

Your data, when you need it, where you need it. This kind of accessibility provides key stakeholders the information that they need to make critical business decisions.

### Efficiency

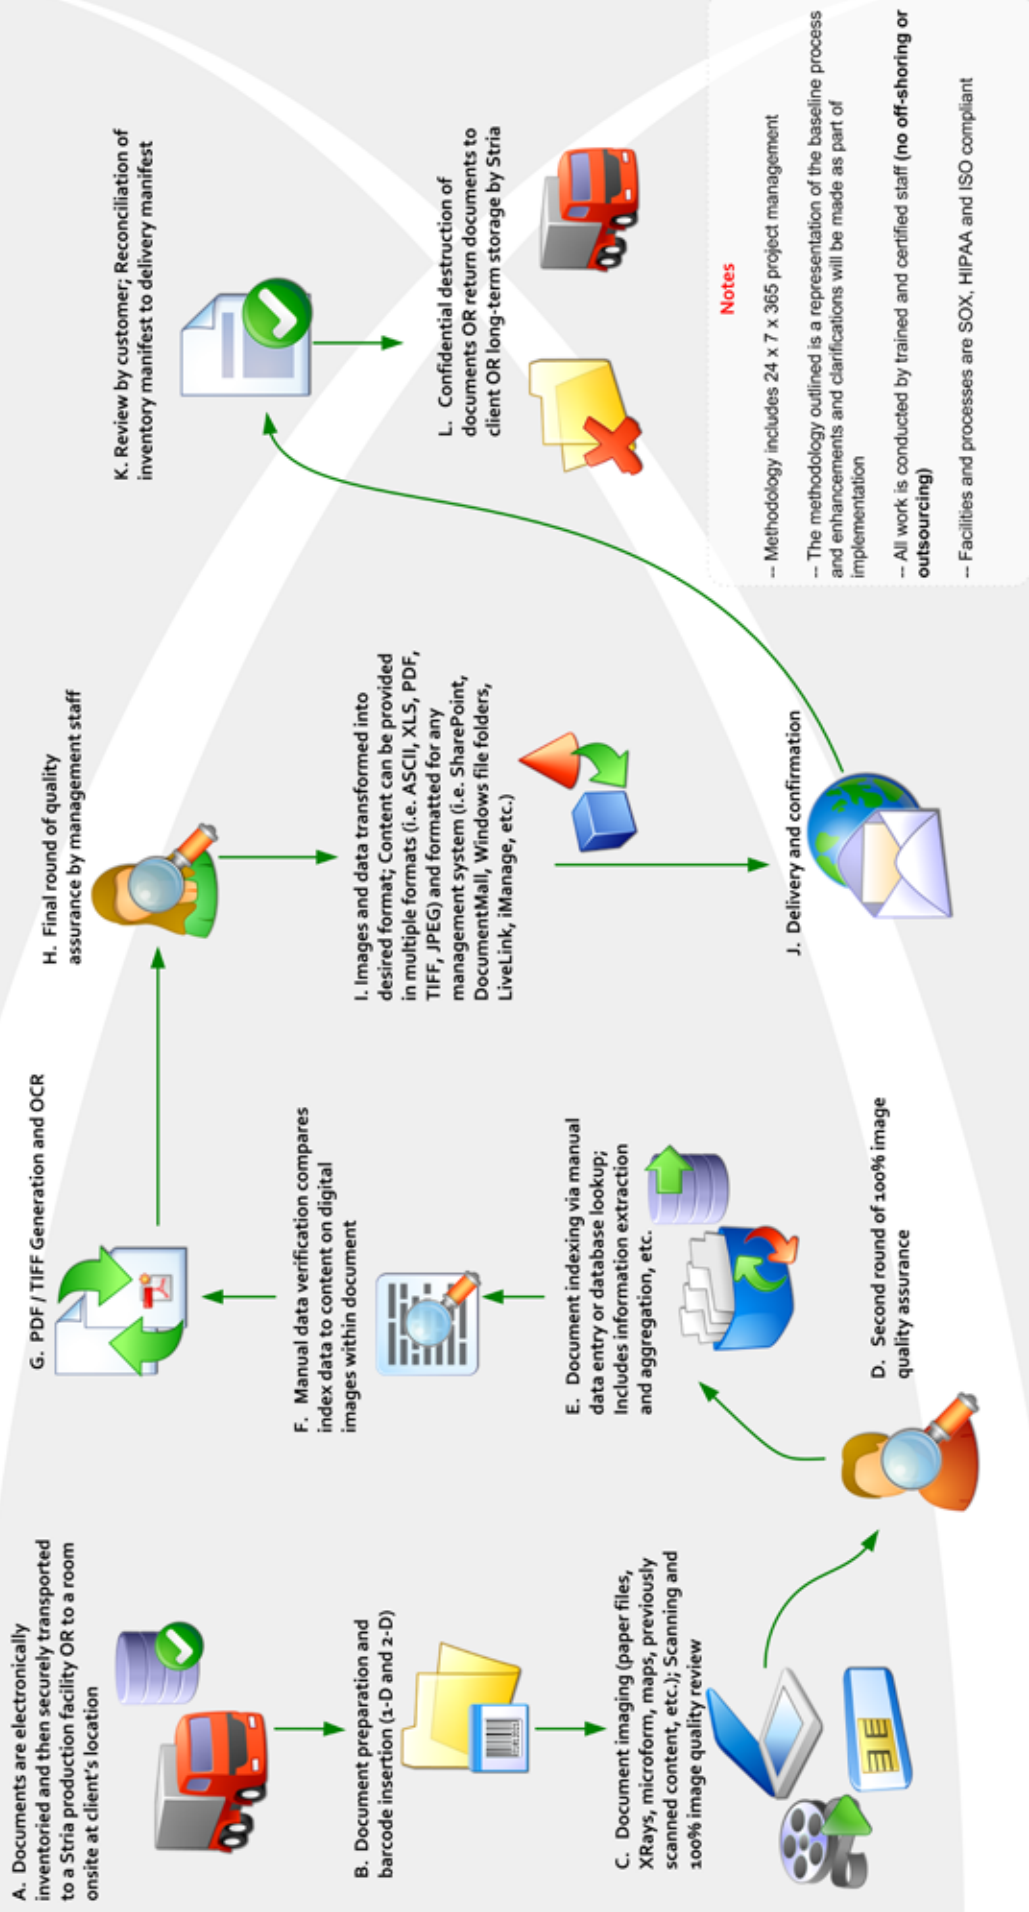

Storing, organizing and managing a high volume of documents presents a significant challenge when trying to maintain agility in your business. The Stria Methodology ensures that more of your resources are focused on your business rather than on the physical data that your business generates.

# CONVERSION METHODOLOGY

Allow Shred-it and Stria to custom tailor a solution that will enable you to:

- Increase availability of meaningful data
- Reduce conversion costs
- Increase regulatory compliance
- Enhance departmental communication
- Increase business agility
- Improve disaster recovery (DR) positioning
- Repurpose previously gathered data
- Increase your ability to collaborate with offsite stakeholders
- Decrease records management costs

Contact your Shred-it Account Executive to learn more about Document Management Services by Stria.
